

## 4-Shaft Weaving Class Figurative Boundweave

by Myra Chang-Thompson

February 4 & 18, 2018

To be held at James Dwyer Substation, 12700  
Montgomery NE in Albuquerque

Figurative boundweave is a fun way to decorate rugs, fabric for bags and upholstery. It creates a thick, lofty fabric that works up well in linen and wool. You must be able to warp your loom and diagram designs on graph paper. Students will furnish their own warps and background wool for their sampler and small project. The cost for the class is \$200 plus a \$10 materials fee which includes a handout, references and additional colored wool yarn for patterns. Fill out the application form and mail it with a \$50 deposit to Myra Chang Thompson at 35 CutTree Lane, Belen, NM 87002. Myra Chang Thompson, handweaver, dyer, spinner and teacher will lead the class. For more detailed information, contact Myra at [mchangt@yahoo.com](mailto:mchangt@yahoo.com)
